Create

Create new sections and reorder how they appear. Sections have a maximum of 4000 characters. Content formatting will be counted towards the character count. Images must be less than 1MB. A script tag cannot be included in any embed code.

- 1. From the Admin Navigation, select Pages > Home Page.
- 2. Click +New Section.

3. Add the section Name.

• Only admin facing within the Home page section navigation to identify the section.

- 4. Add Content.
 - Add styling elements as needed.
- 5. Click Create Section.
- 6. When you've finished, click Save.

Edit

Click the **Pencil** icon to the right of the section within the left navigation to edit the title or content.

Delete

Click on the "X" to the right of the section within the left navigation to delete.
