Customize both the subject line and email body, as well as select from a pre-determined group of users or select an individual recipient(s). Bitly links (personal bidding links) are able to be included in the email body, similar to those that are included in our custom text messages. Find out more about the [user experience](#) when sending a bitly link.

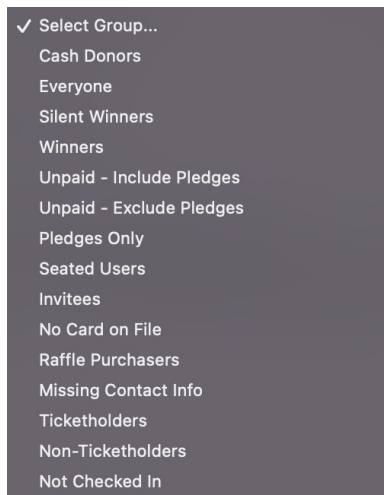

Customize an Email Message

1. From the **Admin Navigation**, select **Communications > Email > +New Email**

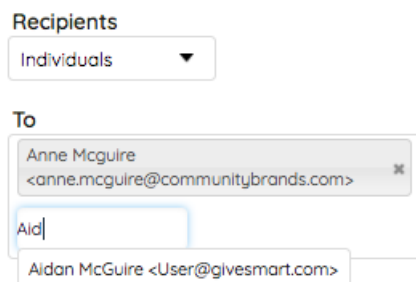

The screenshot shows the 'New Email Message' interface for the 'GiveSmart Demo Site'. The form includes a 'Recipients' dropdown menu with options 'Please Select...', 'Group', and 'Individuals'. Below this is a 'Subject' text input field. The 'Body' section features a rich text editor with a toolbar containing icons for undo, redo, bold, italic, underline, bulleted list, numbered list, link, and source code. At the bottom right of the form are three buttons: 'Cancel', 'Save as Draft', and 'Send'.
