

Add Item Images

Last Modified on 03/23/2023 2:34 pm EDT

Add images to items to capture the supporter's attention. Feature both main and additional images on each item. Image files must be .jpg, .png or .gif (No PDF). The ideal size is 1088 x 816 pixels.

Tip: Use Google images and logos for standard items. Unique and one-of-a-kind items, such as jewelry or artwork, should feature an exact photo, allowing users to view the item in detail.

Note: When taking a photo using an iPhone or iPad, hold the device so the home button is on your right and the camera lens is on your left.

Item Limit

There is no limit to the number of images you can add to an item, however we recommend not having more than 6 per item, as it will begin to push the bidding box lower in the field of view.
