

Customize the Home Page Banner

Last Modified on 05/20/2022 12:31 am EDT

Personalize the image and text color that appears in the Home pages banner.

Note: An image size of 1200x300 pixels, with a maximum file size of 1MB, is recommended. Images that do not fit these dimensions can be uploaded, but might not be optimal.

Add a custom banner image

Create and upload a custom image to appear as the banner image.

Tip: We recommend viewing your campaign from small to large devices to see the visitor's experience.

1. From the **Admin Navigation**, select **Pages > Home Page**.
2. Click **Banner**.
3. Under **Banner Image**, select add an image.
4. Select the image file. Images can only be png, jpg, or gif.
5. Click **Open** to preview the image.
6. When you've finished, click **Save**.

Gallery of images

From the gallery, select a preset image. A preview of the image appears to the right of the navigation sidebar. Click "x" in the selected image to change.

1. Under **Banner Image**, click **Browse** our gallery link.
2. Select the image to preview.
3. When you've finished, click **Save**.

Banner text

The banner text pulls from the Display Name field. Visit [Site Settings](#) to edit. The font type and orientation of the banner text are not customizable.

Note: The banner text appears within the banner image on laptops and tablets, and below the banner image on smaller devices.

1. Under **Banner Text**, choose between desktop and tablet or phone.
2. Click the color box dropdown arrow and choose from the color picker.
3. Toggle to show or hide.
