

# Share a Custom or Presentation Page

Last Modified on 05/22/2022 7:24 pm EDT

Custom pages have unique URLs allowing them to be promoted or shared through a campaign site by [adding a link or button in a custom section](#) or [another custom page](#) or via other channels, outside the site, such as emails and social media.

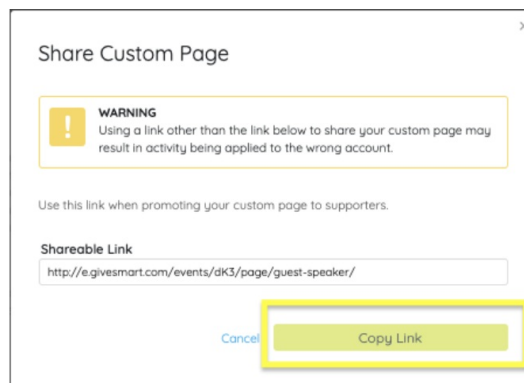

## Share a page

1. Click the blue Share to the right of the URL slug field.

The screenshot shows a 'Pages' form with a 'Cancel' button and a green 'Save' button. The page title is 'guest speaker'. Under the 'SHAREABLE LINK' section, there is a text input field containing the URL slug '/guest-speaker' and a blue 'Share' button with a right-pointing arrow, which is highlighted with a yellow box. Below this is a 'CONTENT' section with an 'Edit Content' button.

2. Click Copy Link to paste in a Home page custom section or another channel.

The screenshot shows a 'Share Custom Page' dialog box with a close button (X) in the top right corner. It contains a 'WARNING' section with an exclamation mark icon and the text: 'Using a link other than the link below to share your custom page may result in activity being applied to the wrong account.' Below the warning is the instruction: 'Use this link when promoting your custom page to supporters.' The 'Shareable Link' is displayed in a text input field as 'http://e.givesmart.com/events/dk3/page/guest-speaker/'. At the bottom, there is a 'Cancel' button and a green 'Copy Link' button, which is highlighted with a yellow box.

Note: When promoting your page with supporters, only use the link found in the Site Container on your dashboard. Sharing a link other than this one may result in activity being applied to the wrong user account.
