

Share Items through Social Media

Last Modified on 03/06/2023 3:21 pm EST

Promote items through Facebook, LinkedIn, Twitter, and email. Content cannot be formatted when sharing. Choose to show or hide the sharable links when viewing item details from the **Items** page.

Include sharable links

1. From the **Admin Navigation**, select **Auction > Settings**.
2. Click the dropdown arrow to adjust the **Share Links**.

The screenshot shows a settings panel titled "Items". It contains two rows of settings. The first row is "Fair Market Value (FMV)" with a dropdown menu set to "Hide". The second row is "Share Links" with a dropdown menu set to "Show". Both dropdown menus have a small downward-pointing triangle on the right side.

3. When you've finished, click **Save**.

Note: We recommend sharing item links via the methods above to ensure a quality user experience, as this will allow registered users the ability to view the item without logging in. We do not recommend using a QR code to promote an item as this will prompt guests to login and will create a less desirable experience.
